

DOUBLE FACED STREET NAME SIGNS

Type AP Silkscreened Sign

Type BP Silkscreened Sign

- A fully sheet reflective street name sign laminated with a choice of reflective sheetings: Engineer Grade, Hi Intensity or Diamond Grade. Reflective sheeting will be applied to both sides of the sign.
- Aluminum sign blanks available in .080" or .100" thick sheet aluminum or aluminum extrusions.
- Screenprinted with transparent inks for full face reflectivity.
- Available in 6", 8", 9" and 10" sign heights (sign length will typically be sized to fit the legend length).
- Double Faced Street Name Signs are designed to be mounted with post top cap and 90° connector brackets (as shown below).
