

SINGLE FACED STREET NAME SIGNS

Type AP Silkscreened Sign

Type BP Silkscreened Sign

- A fully sheet reflective street name sign laminated with a choice of reflective sheetings: Engineer Grade, Hi Intensity or Diamond Grade. Reflective sheeting will be applied to one side of each sign.
- Aluminum sign blanks available in .063" or .080" thick sheet aluminum.
- Screenprinted with transparent inks for full face reflectivity.
- Available in 6", 8", 9" and 10" sign heights (sign length will typically be sized to fit the legend length).
- Single Faced Street Name Signs are designed to be used with back to back mounting brackets (as shown below). Please refer to the Gopher Sign Universal Street Sign Bracket™ or G-100 Series Cast Iron Street Sign Bracket for more information on mounting Single Faced Street Name Signs.
