

GOPHER SIGN COMPANY

SINCE 1922

GX-1 Extension Arm

- This rugged cast iron extension arm is designed to mount to a wooden utility pole with 1/2" lag screws (lag screws not included).
- Specifically designed to accept G-100 & U-100 Universal Bracket™ series street sign assembly brackets.
- Long lasting powdercoated finish to resist rusting.

GX-2 Adapter Plate Kit

- Heavy duty formed 14-gauge steel adapter plate designed to adapt the GX-1 Extension Arm to concrete or metal utility poles with 3 steel tensioning straps.
- Durable powdercoated adapter plate finish.
- Each GX-2 Adapter Plate Kit includes all necessary hardware:
 - 3 galvanized steel tensioning straps,
 - 6 galvanized steel buckle ends and mounting hardware.
